Shaft – 1.1", .5" wide

Base – 2" wide

Length tip to base – 2.5"

large plug:

Head 1.5" wide

shaft 1.1", .6" wide

base 2" wide

Length tip to base 3"

We provide plugs in various shapes and sizes to accommodate the 'experimental user' to the 'anal lover'. The head, also called the bulb, is designed with a taper tip and then graduates to a bulb shape to provide the greatest girth upon entry. The stem, space between the bulb and base, provides the staying power for extended wear of your plug. Our bases are designed wider to accommodate your comfort during wear and for easy gripping for insertion and removal.

All toys are handmade in the U.S.A. with precision and care and always properly annealed and polariscope tested.

Details:

Toys are 100% pyrex glass, Durable, Cleanable, and most of all **DEPENDABLE!** Glass can be heated or chilled (within reason), and is dishwasher safe.

Either water-based or silicon-based lube can be used with glass toys.
